INSIGHTS:

- The bank shows a higher **loan exposure** than deposits, indicating potential **liquidity risk**.
- Private Banking segment contributes the most, showing dependency on **high-value clients**.
- Medium-income customers form the core base, driving both loans and deposits.
- Business lending dominates, increasing exposure to **economic risks**.
- Lower loyalty tiers contribute more than premium tiers, highlighting underutilization of **high-value customers**.
- Customer base is geographically concentrated, increasing **Regional risk**.

RECOMMENDATIONS:

- Increase deposit base through savings and FD products
- Focus on premium customer engagement
- Diversify loan portfolio
- Expand into new regions
- Improve customer retention strategies
